

A black HoverCam Solo 8 Plus document camera is positioned on a white desk. The camera has a long, adjustable arm with a bright orange circular accent at the joint. The base of the camera features a control panel with several buttons and the brand name 'SOLO8' printed on it. The background is a blurred classroom with students and a teacher, suggesting the camera's use in an educational environment.

HoverCam[®] Solo 8Plus

Simply the Best
USB Document Camera

Record HD video at 30 fps without lag or delay saving it directly to the computer, which is easy for teachers to share with students (just drag and drop the video file into Google Classroom, your LMS, etc.) It's a video and lesson recorder that includes a microphone to capture sound

Screen recording, including picture-in-picture (if you want to show your talking head which many K-6 teachers appreciate) while narrating lesson with camera video images, websites, PowerPoint Slides, voice recording and annotation (It's a lesson recorder)

Works with leading interactive softboard packages, such as SMART Notebook or Promethean. "Slingshot" the camera image into any whiteboard software, email, document, any program with just one click without leaving the program

Lossless zoom using our ASR (Adaptive Sensor Resolution) image processing techniques to zoom without loss of quality. HoverCam has pioneered the patent-pending ASR Zoom technology which achieves the equivalent of 8x optical zoom. This eliminates the need for expensive and bulky lenses while making the zooming and panning operation highly responsive and easy to use.

Scan multiple pages into a single PDF file. (It's a scanner). Motion sensor scanning; motion sensor photography

Includes "time-lapse" and "slow motion" video recording useful for science classes

Includes "whiteboard software" for common whiteboard functions
Includes "annotation software" to annotate over any image on the screen

Use with Google Hangouts, Skype (Mystery Skype), Zoom conferencing and distance learning (it's a high-quality webcam)

True 4K resolution @ 30 fps
1080p @ 60 fps
"Warp Speed" mode 720p @ 120 fps

MSI install package available for district wide software deployment

Small footprint
Sturdy, strong construction
Just one USB cable from document camera to computer (no power cable; no extra cable for loop through unnecessary – switch between camera image and computer image with mouse)

Free software upgrades
